## **ADMET Appoints Scott Martin Technical Sales Engineer**

NORWOOD, Mass. – Feb. 7, 2005 – ADMET™ Inc., a provider of integrated materials testing systems, today announced that Scott Martin has joined the company in the newly created position of technical sales engineer. Martin will be responsible for generating new end user and Original Equipment Manufacturer (OEM) accounts in specific markets.

Commented Richard Gedney, “This new position was created to increase sales in specific markets key to ADMET’s long term success. Scott brings relevant sales and technical experience along with a successful track record. His presence should enable us to meet our long term goals while allowing us to deliver the high level of service that our customers have come to expect. We are excited to have him join our team.”

Martin has experience in developing new accounts, managing distributors, working with OEMs and servicing products in the field.

Martin joins ADMET from Edgemar Corporation of North Attleboro, Mass., where he was manager of operations and, in addition to operations, had responsibility for finance, marketing and staff hiring and training. Previously, he held sales engineer and sales management positions at other technology companies, including Lytron Inc. of Woburn, Mass., Prior Scientific Inc. of Rockland, Mass., Flowserve Corp. of Kalamazoo, Mich., and Lawrence Pumps Inc. of Lawrence, Mass.

Martin holds a Bachelor of Science degree in industrial technology from the University of Massachusetts, Lowell and a Bachelor of Science degree in business administration from Iowa State University in Ames, Iowa.

ADMET appoints Martin.../2

### **About ADMET**

ADMET Inc. combines high quality products and services with total cost effectiveness to deliver the industry's most efficient materials testing systems. Its products range from materials testing frames to software and specialized control units. The company offers new testing systems as well as retrofits of existing machines from ATS, Baldwin, ELE/Soiltest, Forney, INSTRON, MTS, Riehle, SATEC, Shimadzu, TestMark Industries, Tinius Olsen, United and others. Highly skilled engineers provide customers with personalized research and development services and support to make ADMET the most responsive materials testing equipment supplier. ADMET's loyal customer base includes leading manufacturers, testing labs, researchers and universities in aerospace, automotive, biomedical, construction, metals, plastics, textiles and other industries. ADMET can be reached at 800-667-3220, [sales@admet.com](mailto:sales@admet.com) or by visiting <http://www.admet.com>.
